- Press [SET] button(7) to save the hour setting. Repeat for minutes.

5. Setting the Time:

- Press the [ALARM] button(8) to toggle the alarm on or off. The dot on the left of the display lights up when the alarm is on.

- Press [SET] button(7) until the alarm time is displayed.

- Press and hold [SET] button(7) to set the alarm time. The hours will flash.
- Use [UP](5) and [DOWN](6) buttons to adjust hours. (The PM dot will appear for PM hours)
- Press [SET] button(7) to save the hour setting.
- Repeat for minutes then press the [SET] button(7) to save the minutes setting.
- The clock will return to the default display mode.

6. Snooze Function:

- When the alarm rings, touch the touch sensor(9) on top of the clock to enter snooze mode.
- The alarm will ring every 5 minutes.
- Long touch the top of the clock to turn OFF the alarm.

** If no action is taken, the alarm will stop after 1 minute and exits snooze mode.

7. Temperature Display:

- The clock automatically detects and displays the temperature when turned on.
- The clock is defaulted to Celsius (°C), press the [DOWN] button(6) when the temperature is displayed to switch between Fahrenheit (°F) and Celsius (°C).

8. Adjusting Screen Brightness:

- Touch the middle Sensor(9) of the clock to adjust the display brightness.

Safety Precautions:

WARNING-When using this product, basic precautions should always be followed:

1. Read all the instructions before use.
2. To reduce the risk of injury, close supervision is necessary when the product is used near children.
3. Do not expose the device to moisture.
4. Do not use the device in excess of its output rating. Overload outputs above rating may result in a risk of fire or injury.
5. Do not use the device if damaged or modified.
6. Do not disassemble the device. Take it to a qualified service person when service or repair is required. Incorrect reassembly may result in a risk of fire or injury.
7. Do not expose the device to fire or excessive temperature. Exposure to fire or temperatures above 100°C may cause explosion.
8. Have servicing performed by a qualified repair person using only identical replacement parts. This will ensure that the safety of the product is maintained.
9. Do not overcharge Phone. Unit may get hot with excessive use. Remove Phone when it is fully charged. Never charge for more than 7 hours at a time.
10. Attachments on the back of your phone can impede the effectiveness of the wireless charger, and lead to overheating. Please remove attachments from the phone before charging on this device.

FCC Statement:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Warning:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located for operating in conjunction with any other antenna or transmitter.

CAN ICES-3 (B) / NMB-3 (B)

This Class B digital apparatus complies with Canadian ICES-003. (Cet appareil numérique de la Classe B conforme à la norme NMB-003 du Canada).
